

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	Team ID	Project Name	Maximum Marks
03 NOV 2025	NM2025TMID07720	CRM Application for Jewel Management(Developer)	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Customer Management	Add, Edit, View, and Delete Customer Details
FR-2	Jewelry Inventory Management	Add and update stock for Gold, Silver, and Diamond items
FR-3	Order Management	Create and track customer orders
FR-4	Billing & Payments	Generate bills, record payments, and track due amounts
FR-5	Communication	Send confirmation emails or SMS to customers
FR-6	Reports & Analytics	Generate sales, order, and inventory reports

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	The CRM interface should be user-friendly and easy for jewel store staff to use.
NFR-2	Security	Customer and payment data must be securely stored with authorized access only.
NFR-3	Reliability	The system must provide accurate order and stock information at all times.
NFR-4	Performance	All operations such as order creation or billing should be

		processed without delay.
NFR-5	Availability	The application should be available 24/7 for business use.
NFR-6	Scalability	The system should support growth in customers, orders, and items as business expands.
